Solutions That Perform

For over 100 years, Simoniz has been a leading manufacturer of cleaning products for the commercial, institutional, industrial and automotive markets.

Founded in 1910, Simoniz products were originally based on a cleaner and carnauba wax for car finishes. Recognizing the potential market in household products, the Simoniz Company entered into the floor wax business in 1942 with Simoniz Non-Scuff Floor Wax and later, Simoniz Vinyl Floor Wax, both of which revolutionized the floor wax market. Simoniz slogans, “the self-polishing floor wax” and “it shines while it dries” were seen, heard and recognized by millions of Americans. In 1954, Simoniz extended its floor care line with furniture polishes, cleaners and sponges that were formulated and packaged for business and public large-volume users.

Today, Simoniz manufactures over 3000 cleaning products for the widest spectrum of workplace environments. Our floor care, laundry, food service, hand care products, disinfectants, and all-purpose cleaners are widely used in hospitals, nursing homes, schools, food service establishments, and manufacturing plants.

Our chemical laboratories are staffed by professional chemists and engineers who have formulated the country’s most extensive line of professional cleaning products that are distributed coast to coast. We pride ourselves on the quality of our products and our commitment to the research and development of products and systems that will clean and protect a wide range of hard surfaces more efficiently and safely.

Simoniz quality products are manufactured and supported by our two state-of-the-art manufacturing and distribution facilities totaling over 500,000 sq.ft. which include modern decorating and silk screening capabilities, high speed filling lines, bulk storage tanks, quality engineered material handling systems and a climate-controlled environment that insures cleanliness and productivity.

Simoniz products are supported by our experienced sales and service staff who are all certified “Green and Clean”. When it comes to cleaning and protecting, Simoniz is the brand preferred by millions of professionals worldwide.

Disinfection & Mildew stain removal - 4 oz. per gallon of water

Directions
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL USE DIRECTIONS
APPLICATION: For disinfection remove heavy soil deposits from surface. Then thoroughly wet surface with a solution of 4 ounces (1/2 cup) of the concentrate per gallon of water. Apply with a cloth, mop, sponge, or coarse sprayer, or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface, add with a wash, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or wipe dry with a clean cloth or sponge or allow to air dry. Rinse all surfaces that come in contact with food such as countertops, exterior surfaces of appliances, tables and utensils with potable water before reuse. Do not use on mirrors, glassware, dishes or appliance interior surfaces as a disinfectant. Prepare a fresh solution daily or more often if the solution becomes diluted or visibly soiled. Rinsing of floors is not necessary unless they are to be waxed or polished. This product is not for use on medical device surfaces.
