Prime Cut

EP1101

A heavy-duty, high foaming alkaline detergent designed for cleaning floors, walls, food service equipment, smoke houses, heavy grease and oil. Especially recommended for cleaning floors and food processing equipment. Completely soluble in hot or cold water. High foam and free rinsing.

Where To Use

Kitchens
Meat Rooms
Food Processing Plants
Hotels & Motels
Restaurants & Food Service Operations

Dilution

Light Cleaning 2oz./gal
Medium Cleaning: 4oz./gal
Heavy-Duty Cleaning: 6oz./gal

Directions

This product generates thick foam. It clings to overhead and vertical surfaces allowing its detergent action to penetrate and loosen a variety of soils such as grease and fat. Prime Cut was designed for use in meat packing plants but can be used to clean a wide variety of surfaces, such as shower stalls, locker rooms, etc. Use hot water in a high pressure hose with a nozzle, or pressure sprayer to remove the heavy soil from the surface. Then, use Prime Cut in a foaming device or foaming equipment and follow the recommended procedures specified by the equipment manufacturer. Allow the product to be in contact with the soil for 2-3 minutes. Do not allow the product to dry on surface. Rinse well. This product may be used by a mop or other suitable means as well. Allow solution to penetrate and rinse with water.

Technical Specifications

COLOR:	Light Blue	VISCOSITY:	Water Thin
FORM:	Liquid	STORAGE(Unopened):	1 Year @R.T.
SCENT:	N/A	BIODEGRADABLE:	Yes
pH:	13.5-14	WEIGHT/GAL:	8.4 lbs.
