

Master Blend Enzymatic Floor Cleaner

M2107045

An enzyme producing bacterial liquid floor cleaner and a great product for cleaning and deodorizing restroom floors. This product can be used on ceramic tile, grout, quarry tile, concrete, brick and rubber mats. This product can be mopped down or used with a floor machine. This enzyme producing bacterial liquid continues to clean long after it is applied.

Where To Use

Restrooms Kitchen Floors
Locker Rooms Areas requiring odor control
Port-A-Toilets

Dilution

1-2 oz per gallon depending on soil load.

Directions

Dust mop floor prior to cleaning. Remove any gum or other foreign materials. Dilute product according to chart above. Apply product by mop, sponge, sprayer or auto-scrubber to surfaces to be cleaned. If necessary, use floor machine to agitate to help remove excessive soils.
