

Shower Room Cleaner

S1172045

Shower Room Cleaner was formulated to quickly penetrate into tile and grout to remove stubborn soap scum and hard water deposits. The special blend of surfactants and mild acid will cling to vertical surfaces for fast and thorough cleaning. Use with a foam applicator for best results. Master Blend features SafeLink Adaptive Closed-Loop™ Technology. It prevents leaks and is safer for employees and the environment.

Where To Use

Shower Rooms	Walls	Urinals	Tile Floors
Health Clubs	Schools	Universities	

Dilution

General Cleaning: 1/20 dilution
 Light Foam Cleaning: 1/64 Dilution
 Heavy Foam Cleaning: 1/32 Dilution

Directions

Master Blend Shower Room Cleaner is designed to be diluted at 2-6 oz. per gallon through the Simoniz Master Blend Dilution Systems. The Master Blend systems are preset for a 2 oz. per gallon dilution for filling quarts and 1 oz. per gallon (wall mount unit) for the bucket fill. If a different dilution is desired, please see the instructions with the dispenser to determine the correct metering tip. (Portable Master Blend units are preset at 2 oz. per gallon). Simply attach the half gallon to the dispenser via the cap at the end of the draw tube (wall mount) or attach the portable unit directly on to the half gallon and fill either quarts or mop buckets. For non foaming applications and general cleaning with a sponge or cloth, dilute product 1 to 20. To foam Shower Room cleaner with the Master Blend Portable dispenser, optional Standard Foamer, Part #DEMA52339 or Premium Master Blend Foamer, part #DEMA52336 will need to be ordered. If using this product with another dispenser, use the appropriate tip for the desired dilution. (Please note, in order to use Master Blend products with other dispensers, part number C38CS4W must be attached on the pickup tube.)
